School Board Appoints Acting Principal For A I S

Daniel W. Davis, Home-School Coordinator for Appomattox County Schools, was appointed acting principal for the Appomattox Intermediate School at a meeting of the board on Friday afternoon.

School-Lunch Program Approved

The Appomattox County School Board meeting in regular session on Friday, August 3rd, appointed Daniel W. Davis as acting principal of the Appomattox Immediate School. He replaces L. A. Beamon, who moved from the county on June 30 to become Director of Instruction with the Westmoreland County School Board.

Since 1971 Davis has served as Home-School Coordinator for the Appomattox Schools. He will continue to assume some of the responsibilities of his previous position. At the time a principal is appointed to the Intermediate School, Mr. Davis will return to his position of Home-School Coordinator.

He received a B.S. Degree from A. and T. College in 1951, M.E.D. Degree from Lynchburg College in 1971. He has completed graduate work at the University of Virginia, University of Nebraska and Virginia State College.

From 1957 to 1966 he taught mathematics at Central High School in Amherst and from 1966 to 1969 at Amherst High Sch mathematics at t nd Appomattox High School from 1969 to 1971.

He is a member of Court Street Baptist Church in Lynchburg, where he is a deacon and general church treasurer. He is a member of the Virginia Education Association, N.E.A., A.S.C.D., Council for Exceptional Children, Adult Education Association of Virginia, Kappa Delta Pi, Visiting Teachers Association, LAARC School Board, and the Family Service Board.

He is married to the former Lizzie Shepperson of Hot Springs, Virginia.

"We are fortunate to have Mr. Davis assume the responsibilities of the principalship of the Appomattox Intermediate School in an acting capacity", said Lloyd Walton, Division Superintendent. "He is familiar with the school system and has demonstrated his ability as a very capable educator."

In other business before the board, upon the recommendation of Lloyd Walton, Division Superintendent, a Work-Study Program for 1973-74 was approved by the board members.

The Work-Study is designed to give high school students in the Vocational Education program an opportunity to work in a planned program using a work-learning permit. As many as 35 students may be able to participate in this program and can earn up to $45.00 per month with the state paying 80% of salaries paid to students. Students will be under the direct supervision of faculty members during their "on-the-job" training.

Having previously discussed a policy and procedures manual for Appomattox County bus drivers with Mr. H. A. Paulette, Supervisor of Transportation, Superintendent Walton recommended that a "Bus Driver's Handbook" be approved by school board members. Transportation of students to and from school is one of the most important phases of school operation as it involves "Transporting The Most Precious Cargo - Someone's Child". Board members approved the adoption of the Bus Driver's Handbook which includes a letter from the Division Superintendent to all principals, mechanics, bus drivers, and other personnel concerned with school transportation in Appomattox County; changes in Virginia State laws concerning school buses on dual highways; schedule; specific rules and regulations of the School Board relative to bus drivers; rules and regulations related to operating school buses; and pupil regulations.

It is felt that it is most important for both parents and students to become familiar with the pupil regulations, a copy of which will be printed on another page of this issue of the **Times-Virginian.**

The School-Lunch program for the 1973-74 school session was discussed by board members and they approved a policy for free and reduced priced lunches for students who qualify. A specific scale will be set-up in order to determine the eligibility of students applying for free lunches or lunches at reduced prices.

Board members approved a 5c increase in price for school lunches subject to change if the need arises. School lunches for Kindergarten through Grade 9 students will increase from 30 cents to 35 cents and for Appomattox County High School students, Grades 10 through 12, the prices for school lunches will increase from 35 cents to 40 cents beginning with the fall semester.

Pre-School Workshops will begin for the 1973-74 session on August 20-21 at 9:00 a.m. until noon both days when principals and the central office staff will meet. Orientation for new teachers will be held on August 24th from 9:30 a.m. until 3:30 p.m. and total staff meetings will be held from August 27 through August 31 with the opening of public schools in Appomattox County set for September 4th.

In other business before the board the Varsity Football Schedule for the season was approved.

With the opening of public schools in the fall, the Kindergarten Program in Appomattox County will begin for the first time. Approximately 100 children have already registered for the kindergarten program, either to attend classes at the Pamplin Elementary School or at Oakville. The Oakville Center will serve those children who would attend the Appo-
